TECHNICAL COURSES

QA QC, HVAC & MEP Engineering
Blitz Academy
Kollam | 2016

PROJECTS

E-commerce Application

- ❖ Developed a fully functional e-commerce platform using React.js.
- ❖ Implemented features such as product listings, shopping cart functionality, and checkout processes.
- ❖ Integrated backend APIs for user authentication, product data retrieval, and order management.
- ❖ Github link : <https://github.com/BlackHues/Ecommerce-React.js>

To-Do List Application

- ❖ Designed and implemented a dynamic to-do list application using React.js.
- ❖ Implemented features such as task creation, deletion, and updating with real-time updates using React state management.
- ❖ Utilized local storage or backend APIs for data persistence and synchronization across devices.
- ❖ Github link : <https://github.com/BlackHues/Simple-ToDo-React>

API Data Fetch and View

- ❖ Created a React.js application to fetch and display data from external APIs.
- ❖ Implemented features to fetch data asynchronously and displayed it dynamically on the frontend interface.
- ❖ Github link : <https://github.com/BlackHues/URL-Data-Fetcher>

SKILLS

- | | | |
|--------------|-----------|--------------|
| ❖ Django | ❖ HTML | ❖ Git |
| ❖ Flask | ❖ CSS | ❖ Hooks |
| ❖ React.js | ❖ Node.js | ❖ Routing |
| ❖ JavaScript | ❖ MySQL | ❖ Typescript |
