PERSONAL PROJECTS

Ecommerce Website

- Implemented features such as product listings, shopping cart functionality, and checkout processes.
- Developed a fully functional e-commerce platform using React.js.
- Github link : <https://github.com/BlackHues/Ecommerce-React.js/tree/master>

Portfolio

- Used React.js and Tailwind CSS to create portfolio.
- Utilized the react-scroll library to implement smooth scrolling functionality within single-page applications.
- Github link : <https://github.com/BlackHues/my-react-portfolio>

Countries Finder w/ React native

- Used different types of hooks such as useState, useEffect, useMemo, useRef and async function to fetch data from api.
- Github link : <https://github.com/BlackHues/First-React-Native-API.Fetch-APP>
